PROFESSIONAL SUMMARY

A Full stack developer with expertise in MERN and modern web technologies. Experienced in building responsive, user-focused interfaces and optimizing user experience. Skilled in solving complex challenges, as demonstrated by solving 150+ problems on LeetCode and contributing to impactful projects during internships.

EDUCATION

Bihar engineering university patna

Aug 2023-present

- B.Tech in Computer Science & Engineering ,CGPA - 7.48
- **Key Coursework:** Data Structures, Algorithms, Database Management Systems, Operating system , OOP in C++, Web Development

Bihar school examination board

- intermediate in PCM , PERCENTAGE -81.4%

2019-2021

SKILLS

Programming Languages: C++, JavaScript, SQL, HTML, CSS

Frameworks and Libraries: React.js, Node.js , express.js

Core Concepts: Data Structures, Algorithms, Object-Oriented Programming (OOP), DBMS

Database : MongoDB , MySQL

PROJECT

Smart Expense Tracker (MERN)

Built a full-stack expense tracker using MERN stack

Key Features:

- Implemented JWT-based authentication and secure APIs
- Created interactive charts for spending analysis
- Created interactive charts for spending analysis

Stock Market Dashboard (MERN)

- Developed a stock dashboard using MERNstack and external APIs
- Integrated APIs for real-time stock data and trends
- Built portfolio tracking with profit/loss calculation
- Implemented data visualization (charts) for insights
- Built portfolio tracking with profit/loss calculation

ACHIEVEMENTS

- **Certified Internship:** Successfully completed an internship at INVIGO infotech.
- **Certification :** Deloitte- Data Analytics Job Simulation, Walmart - Advanced Software Engineering Job Simulation
- **LeetCode Performance:** Solved 150+ problems on LeetCode
